Title: NESHAP for Plating and Polishing Operations (Renewal)

ICR Numbers: EPA ICR Number 2294.03, OMB Control Number 2060-0623.

ICR Status: This ICR is scheduled to expire on January 31, 2012. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the Federal Register when approved, are listed in 40 CFR part 9, are displayed either by publication in the Federal Register or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The affected entities are subject to the General Provisions of the NESHAP at 40 CFR part 63, subpart A, and any changes, or additions to the General Provisions specified at 40 CFR part 63, subpart WWWW.

Owners or operators of the affected facilities must submit initial notification, performance tests, and periodic reports and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports, at a minimum, are required semiannually.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 16 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review

instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners or operators of plating and polishing operations.

Estimated Number of Respondents: 2,900

Frequency of Response: Initially, and annually.

Estimated Total Annual Hour Burden: 33,108

Estimated Total Annual Cost: \$3,180,693, which includes \$3,172,379 in labor costs, \$8,314 in capital/startup costs, and no operating and maintenance costs.

Changes in the Estimates: There is a decrease in the total hours as currently identified in the OMB Inventory of Approved Burdens due to a mathematical error in determining the person hours per respondent in the previous ICR. There is an increase in labor costs. This is not due to any program changes. The change in the cost estimates occurred due to adjustments in labor rates for both respondents and the Agency.
